...at our Fall Sharing Conference with *“Teachers Teaching Teachers”*

NCTAE cannot produce this conference without our amazing members. We appreciate the extra time, energy, and creativity you invest in preparing and presenting workshops at our conferences. What lessons or units are the most fun for you to teach your students? Share those with your colleagues and let us enjoy it too!

WORKSHOP GUIDELINES:

- Engaging — Hands-on and interactive materials are best
- Practical — something participants can use when they get home
- 50-Minute Sessions — consider ~20 minutes max of instruction and the remaining time for application and experimentation
